

YOUR ONE DUCTING SOURCE!

LaserLock™ Clamp Together Ducting

Whether your application calls for light to heavy gage duct, or moderate to severe process criteria, LaserLock™ ducting makes the right product for you. LaserLock™ ducting is a modular ducting system available in a range of standard sizes. The system is complete with bends, blast gate dampers, reducing cones, branch pieces — all joined with clamps, reducing installation time to almost half that of conventional methods of ducting. Our experienced staff can review our capabilities with you, or you can send your specifications to us and we will provide solutions for easy installation and secure clamping of your system.
